

# **Report on Animal Welfare Camp**

**Organized by The Hope Society**

**Date: 24<sup>th</sup> April 2024**

**Location: Cuttack**

On 4<sup>th</sup> May 2024, The Hope Society organized a successful Animal Welfare Camp at various places including Khannagar, Trisulia & Badambadi in Cuttack with the goal of supporting and caring for the stray animals in the region. This camp aimed at addressing the pressing need for food, water, medical care, and other essential services for animals that often go unattended. Our dedicated team of veterinarians, volunteers, and animal lovers worked tirelessly to ensure the well-being of every animal that came under our care during the camp.

## **Objectives:**

The main objectives of the Animal Welfare Camp were:

1. **Provide Drinking Water Facilities:** Setting up clean water stations for stray animals across the locality.
2. **Offer Nutritious Food:** Ensuring that stray and needy animals received healthy meals.
3. **Veterinary Care:** Offering on-site veterinary consultations and basic medical treatment.
4. **Required Surgeries:** Performing necessary surgeries, including sterilizations, for injured or unwell animals.

## **Services Provided:**

### *1. Drinking Water Facilities*

At the camp, we installed water stations in several areas of Kalinga Nagar to provide clean drinking water to stray animals. These stations were strategically located in areas where animal movement is most common, ensuring accessibility. The team refilled these stations regularly and provided information to locals on maintaining them for the long term.

### *2. Food Distribution*

Throughout the day, our volunteers distributed nutritious meals to stray animals like cows, dogs, etc. This not only helped alleviate hunger but also contributed to the overall health and well-being of the animals. Special care was taken to provide suitable diets for different species, ensuring that each animal's specific dietary needs were met.

### *3. Veterinary Care*

A team of experienced veterinarians set up a clinic on-site where animals could receive free medical check-ups. Services included deworming, vaccinations, and treatment for injuries and infections. Over 100 animals received veterinary care during the camp, many of which had been suffering from untreated ailments.

### *4. Surgeries and Sterilizations*

Several animals required more intensive care, including surgeries for wounds, fractures, and other conditions. Our team performed these procedures on-site, including sterilization surgeries to control the stray population in a humane manner. Post-operative care was

provided, and arrangements were made for temporary shelters where animals could recover.

## **Conclusion**

The Animal Welfare Camp held by The Hope Society at Cuttack, was a success, addressing critical needs for stray and domestic animals. Through providing essential services like food, water, medical care, vaccination and surgeries, we made a significant impact on the well-being of the animals in the region. This camp also raised awareness among the local community about the importance of animal welfare, encouraging them to take responsibility for the animals in their neighbourhoods.

The Hope Society plans to continue organizing such camps in different locations, ensuring that no animal goes without care and support. We are grateful to our volunteers, sponsors, and veterinary team for their incredible effort in making this camp a success.

# SECRETARY, THE HOPE SOCIETY AT THE ANIMAL WELFARE CAMP

## A NOTE FROM THE SECRETARY

*"We are pleased to share the success of our recent Animal Welfare camp organized by the The Hope Society."*

*"In our recent Animal Welfare Camp, The Hope Society achieved notable advancements in supporting animal welfare. We facilitated the distribution of essential food and water to stray cows and other animals. Additionally, we conducted comprehensive veterinary check-ups at our gaushala, administered necessary treatments and surgeries, and provided vaccinations to ensure the health and well-being of the cattle. This initiative underscores our enduring commitment to promoting and enhancing animal welfare within the community."*

# OUR VOLUNTEERS: FACES OF COMPASSION FROM THE ANIMAL WELFARE CAMP

# Word of Success: Our volunteers Reflect on the Animal Welfare Camp

Our recent Animal Welfare Camp was not only a significant event for the animals we support but also a memorable experience for our dedicated volunteers. In their own words, our volunteers reflect on the success of the camp:

Tapan: *"Being involved in the camp allowed me to contribute directly to the well-being of stray and domestic animals. The sense of accomplishment from seeing the animals receive care and support was truly fulfilling. I am proud of what we achieved together."*

Subhasmita: *"The camp reinforced our commitment to animal welfare and highlighted the importance of community support. It was rewarding to be part of such a compassionate initiative."*

Bikash: *"Participating in the Animal Welfare Camp was a deeply rewarding experience. It was heartening to see the animals receiving the care they needed and to work with like-minded individuals committed to making a difference. The success of the camp is a testament to our shared dedication."*

*"The camp was a fulfilling experience, allowing us to contribute meaningfully to the well-being of animals in need. It was inspiring to see the difference we could make with our collective efforts."*

*"Working alongside fellow volunteers, I witnessed firsthand the impact of our work. The gratitude from the animals and the positive outcomes of our efforts made every moment worthwhile."*

*"The camp was a remarkable experience, filled with moments of joy and learning. Working alongside other volunteers and making a tangible difference in the lives of animals reinforced my commitment to animal welfare. It was inspiring to see the collective impact of our efforts."*
